Summary

Senior iOS Software Engineer with 10+ years of software development experience and 9+ years specializing in iOS platforms. Experienced in building scalable mobile applications using Swift, Objective-C, SwiftUI, UIKit, and modern architectural patterns such as MVVM and Clean Architecture. Proven track record delivering high-impact mobile solutions in fintech, e-commerce, and edtech environments, while collaborating closely with product, design, and backend teams. Experienced in modernizing legacy codebases, improving development workflows, and mentoring mobile engineers. Familiar with AI concepts applied to software development, including AI agents, RAG (Retrieval-Augmented Generation), and MCP (Model Context Protocol), along with hands-on experience applying workflows such as spec-driven development to make the development process more predictable and efficient.

Experience

Stone	Remote, Brazil
<i>Senior iOS Software Engineer / Mobile Tech Lead</i>	<i>Mar 2024 – Present</i>
• Led mobile development in the Credit Revitalization squad, delivering new credit solutions that doubled the number of clients using credit products in the mobile application. • Mentored two mobile developers while coordinating mobile releases and ensuring code quality across the team. • Led the migration of legacy user flows from UIKit to SwiftUI, improving UI scalability and reducing maintenance complexity. • Implemented shared business logic using Kotlin Multiplatform (KMP), enabling code reuse across Android and iOS platforms. • Acted as Code Owner for mobile repositories, reviewing and approving pull requests and ensuring adherence to architectural standards. • Adopted a spec-driven development workflow supported by AI tools, spanning from writing tech specs based on PRDs to coding and mapping test scenarios with evidence, increasing delivery predictability and quality.	
Banco Itaú	Remote, Brazil
<i>Senior iOS Software Engineer</i>	<i>Nov 2022 – Mar 2024</i>
• Delivered a redesigned bank statement experience in the Itaú super app, reducing screen load time by 25% and improving user experience. • Developed new features in the “My Finances” section, helping users better understand spending behavior and financial activity. • Collaborated with product managers, designers, and backend teams to deliver scalable mobile solutions aligned with business goals.	
MovilePay (iFood Pago)	Remote, Brazil
<i>Senior iOS Software Engineer</i>	<i>Feb 2022 – Nov 2022</i>
• Contributed to the development of credit solutions tailored for iFood partners and merchants. • Built scalable features following the Clean Swift (VIP) architecture to support maintainable and testable mobile modules. • Implemented automated tests and CI pipelines to ensure application reliability and release stability.	
CI&T	Campinas, Brazil
<i>Senior iOS Software Engineer</i>	<i>Aug 2017 – Feb 2022</i>
• Delivered mobile solutions for e-commerce, fintech, and healthcare applications across multiple client projects.	

- Mentored and trained more than 10 developers in iOS development practices, helping expand the company's mobile engineering capabilities.
- Collaborated with cross-functional teams in Agile environments to deliver high-quality mobile applications.

Somos Educação

Bauru, Brazil

iOS Developer / Tech Lead

Feb 2016 – Aug 2017

- Led development of the Adapta/Plurall classroom orchestration mobile application used in digital education environments.
- Implemented CI/CD pipelines with Jenkins and Fastlane to automate testing and App Store releases.
- Maintained a modular project architecture with automated build and release processes.

MStech

Bauru, Brazil

Front-End Developer / iOS Developer

Dec 2011 – Jan 2016

- Built the company's first iOS application (Livrera), a digital bookshelf application for educational content.
- Managed the full mobile app lifecycle from feature planning to beta testing and App Store release.
- Developed educational games and interactive applications using ActionScript, JavaScript, and HTML.

Lecom

Bauru, Brazil

Java Developer

Feb 2010 – Dec 2011

- Developed web applications using Java, Spring Boot, and MySQL.
- Maintained CRM and Sales Force systems, implementing new features and supporting existing modules.

Skills

- **Languages:** Swift, Objective-C, Kotlin, C#, Java, JavaScript, Python
- **iOS Development:** SwiftUI, UIKit, CoreData, GCD, XCTest, XCUITest, App Store Guidelines
- **Architecture:** MVVM, MVVM-C, MVC, VIP (Clean Swift), MVP
- **Tools:** Git, Fastlane, GitHub Actions, Jenkins, CocoaPods, Carthage, Swift Package Manager, XcodeGen
- **Other:** Kotlin Multiplatform (KMP), Android, CI/CD, Mobile Architecture
- **Languages:** Portuguese (Native), English (Professional)

Education

Faculdade G&P

Pederneiras, Brazil

B.Sc. Computer Information Systems

2011 – 2014
